

PRELIMINARY PROGRAM – BEYOND OIL 25-26 OCT 2017

Venue: Litteraturhuset (House of Literature), Bergen

(the program may change)

WEDNESDAY 25 OCT

Start 09.00

OPENING SESSION

Welcome

Keynotes panel: Mobilizing alternative futures in times of rapid transition

Kevin Anderson: Title TBC

Josefin Wangel: Title TBC

Moderated discussion

LUNCH BREAK

PANEL 1: Inertia and Instability of Energy Governance

Patrik Oskarsson	Swedish University of Agricultural Sciences	Policy discontinuities in a multipolar world: Global best practices and the governance of Indian coal mining in Mozambique
Vincent Della Sala	University of Trento, Italy	Ontological Security and the Narration of Energy in the European Union
Bård Lahn og Guri Bang	CICERO	Carbon risk as institutional challenge: The case of Norway
Joshua Kirshner	University of York	Energy landscapes and scaling energy systems change in Mozambique

PANEL 2: Thinking Post-oil: Conceptualizing Alternatives

Rhys Williams	University of Glasgow	Solarpunks or Sunken Poles: Visions of Alternative Energy Futures
Saulesh Yessenova	University of Calgary	Future Energy and Human Imagination: EXPO-2017 in Astana
Endre Tvinnereim & Kjersti Fløttum	Uni Rokkan Centre and UiB	Norwegian citizens' conception of energy and energy transition
Carlo Aall	Vestlandsforskning	Setting the climate transformation-Agenda: the case of Sogn og Fjordane county in Norway

PANEL 3: Politicising Climate and Energy Transformations

Thor Øivind Jensen and Clifford Shearing	University of Bergen; University of Cape Town	Children of the Anthropocene: Nature, Energy and Citizenship
--	---	--

Bradon Smith	Open University, UK	The Role of Stories in Mobilizing Alternative Future Energy Systems
Randel Hanson	University of Minnesota Duluth	On the Inertia of Northern Hemispheric Polities in Moving Beyond Oil
Philippe Le Billion and Berit Kristoffersen	University of British Columbia; University of Tromsø	Just Cuts: Constraining oil supplies in the Petrocene
PANEL 4: Critical Innovation: Methods and Design for Initiating Change		
Carola Hein, Paolo De Martino	TU Delft	Architecture and Urbanism Beyond Oil: Designing the transition in Rotterdam and Dunkerque
Siddharth Sareen	University of Bergen	Bridging concepts: Applying energy transformation imaginaries to the empirics of solar uptake
Ragnhild Freng Dale	Scott Polar Research Institute, University of Cambridge	A courtroom made of ice: where theatre and social science intersects
Linda Lien, Bente Irminger, Torhild Eide Torgersen	Department of Design Faculty of Fine Art, Music and Design University of Bergen	Design Thinking, from theory to practice

PLENARY WRAP-UP SESSION

CONFERENCE DINNER and panel debate at IMPACT HUB: Social innovation for transformation

THURSDAY 26 OCT

Start 09.00

PLENARY SESSION

Keynote: Ranjit Bharvikar

Moderated discussion

PANEL 5: Just Transformations? The Role of Resistance and Community Mobilization

Anna Szolucha	Dept of Social Anthropology, University of Bergen	Shale gas in the UK and Poland: The role of conflict in shaping social relations and alternative energy futures
Franziska Paul	University of Glasgow	"Resist! Reclaim! Restructure!": Labour's Involvement in Energy Democracy Struggles
Emiliano Castillo Jara	Universidad Nacional Autónoma de México	Environmental struggles over the expansion of tar sands pipelines in British Columbia, Canada.
Kathryn Milun	University of Minnesota, Duluth	Solar Commons: mobilizing community trust ownership of solar energy for local social equality and new ecological imaginaries in the US and

India.

PANEL 6: Capacities for Change: Understanding Citizens and Local Contexts

Kirsten Ulsrud	University of Oslo	Pathways towards affordable electricity access: Solutions and challenges for villagelevel solar power supply in different sociocultural and political contexts
Rouven Doran, Gisela Böhm & Daniel Hanss	University of Bergen; Norway University of Applied Sciences; Hochschule Darmstadt – University of Applied Sciences, Darmstadt, Germany	How do laypeople categorize energy transition pathways?
Marikken Wathne	University of Bergen	Norwegian petroleum workers on climate change and energy transitions
Gisela Böhm, Rouven Doran, & Annika Rødeseike	University of Bergen; Inland Norway University of Applied Sciences	Public perceptions of energy transition pathways

LUNCH BREAK

PLENARY SESSION

Keynote: Miranda Schreurs

Moderated discussion

PANEL 7: Potential and Constraints in Energy System Innovation

Hanne Cecilie Geirbo	University of Oslo	Inviting flexibility in electricity system design: Experiences from a pilot project in Bangladesh
Karina Standal	University of Oslo	Scales of power: From private sector development to community mobilisation for decentralised solar systems
Dr. Festus Boamah, Prof. Dr. Eberhard Rothfuß	University of Bayreuth, Germany	The adaptation to Solar Energy Technology in the Global South: from innovations towards socio-technical relationality of energy practices?
Allan Dahl Andersen	University of Oslo, Norway	Moving beyond oil – A capabilities perspective on oil and gas supply firms' diversification challenges in Norway

PANEL 8: Pathways to energy transition

Wouter Poortinga, Gisela Böhm, and the EPCC research team	Cardiff University; University of Bergen	Preferences for Energy Supply Systems: A Cross-National Comparison of Four European Countries
Isak Stoddard, Kevin Anderson, Jesse Schrage	CEMUS, Uppsala University	Regional carbon budgets and catalyzing rapid transitions to fossil free futures
Marianne Zeyringer, Dennis Konadu, Andy Moore, James	UCL Energy Institute, London and Cambridge	A spatial analysis of environmental and social constraints of renewable energy deployment and resulting effects on decarbonisation of the power sector

Price, Zenaida Sobral		
Marianne Zeyringer, Gesche Huebner, Andy Moore, James Price, Andrew Smith, Broad Oliver	UCL Energy Institute, London	Designing highly renewable and socially accepted energy systems by integrating the modelling with the "real" world
Melissa J. Kenny	University of Warwick, UK	'Boom or Bust? Assessing the potential of a prosperous industrial urban future for Greenland versus the need for a sustainable urban outlook'

PLENARY SESSION

Conference wrap-up

Discussion and way forward

END around 16.30

We are planning an open/public program on Friday Oct 27 – stay tuned.
